

Elkton-Rugby School Fair.

The annual school fair between Elkton and Rugby was held on Saturday, September 12th at the Elkton School. In spite of adverse weather conditions the fair was well attended and the school-house was filled with an ample display of vegetables, flowers, industrial art work, grains, sewing and cooking. The vegetable exhibits were especially fine, the Elkton school children contributing the greater number. An eastern visitor remarked that even Ontario would be proud of such a display. Elkton also had the better flower exhibit.

There was a greater display of art work this year, Rugby carrying off the laurels in this line.

Although this was the first year for livestock exhibits, there were several entries, Rugby carrying off most of the prizes.

It was interesting to note that a large number of the prizes for sewing and baking went to the boys. There may be many capable bachelors in the future.

Under the able management of the secretary, Mrs. Parker, the programme was carried out in an orderly manner, while the judges were doing the judging a sports programme was carried on outdoors superintended by Miss Chrystal of Elkton, Miss Sissons of Rugby, Mr. Ford of Westcott, and Mr. Dobson of Elkton. There were races, a baseball and a football game.

The judging was capably done by Mrs. Hughes, Misses Lowrey, Brubaker, Brown, and Messrs Lowrey, Campbell and Parker.

There was keen competition among the exhibitors. The greatest number of prizes went to Douglas Hosegood of Rugby, who won thirteen, and Winnifred Hogg of Elkton came second with twelve.

The value of school fairs is inestimable and parents and teachers should encourage the spirit of competition.

EVANGELICAL NOTES.

Church Services Sunday

10.30 a.m.—Morning worship.
11.30 a.m.—Bible School.
7.30 p.m.—Evening Worship.
8.30 p.m.—Senior League of Christian Endeavour

Thursday

7.15 p.m.—Junior League of Christian Endeavour. Study of Catechism, etc.
8.00 p.m.—Praise and Prayer Service.

H. E. Roppel, pastor

Remember the Evangelical Rally Day services on Sunday, October 4th. There will be special music and suitable addresses in both the morning and evening services. The evening service will be conducted under auspices of the League.

We have been asked, "What is the spiritual significance of Rally Day?" It stands for:

- 1 Attendance Day.
- 2 Service enlistment Day.
- 3 Forward Step Day.
- 4 Consecration Day.

This means much more than a single dry record breaking stunt. It is a Rally call to all the inactive, within and without the church, to join the workers in a more vital life program for Christian Service.

This year, Sunday, October 4th, is also recognized in the Evangelical church as "Jubilee Sunday," which commemorates four great events in its denominational history, namely, the founding of the Evangelical church in 1800, now 125 years ago; the beginning of its work in Europe 75 years ago; the first steps in foreign mission work in Japan 50 years ago and in China 25 years ago.

Mr. Darbaker of Ontario, who has spent the last month in the Didsbury vicinity with the intention to help with

Clean Up the Rubbish.

It Safeguards Your Buildings and Cuts Down the Fire Hazard.

October 4th to 10th has been designated as Fire Prevention Week. During that week, lessons on fire prevention subjects will be given in the schools, public meetings will be held in many of the larger cities, towns and villages, and the owners and occupants of property everywhere throughout Canada will be counselled to give special attention to the removal of fire hazards from their premises.

Fire waste is one of the most serious economic problems confronting Canada at the present time. The public in general is vitally affected by the tremendous losses annually incurred by fire and the enormous expenditures rendered necessary to adequately protect life and property from its ravages.

A big harvest bargain sale is being commenced this week by J. Huget. Here is an opportunity you should not miss.

the harvest and threshing, has returned a few days ago to his home in Kitchener, Ontario—with cold feet.

Miss Liddia Sturm, of Taber Alberta, has returned to spend the winter here with her sister, Mrs. George Dippel. She will be remembered as a former soprano singer in the Evangelical church choir.

Wedding bells are ringing, whose?

Public Meeting.

A Meeting will be held in the Opera House, Didsbury, on Tuesday, October 6th, at Eight p.m., which will be addressed by

A. SPEAKMAN, M.P.

Progressive Candidate for the Red Deer Constituency.

Everybody is cordially invited.

BABY USED TO CRY ALL NIGHT

Pimples on Face and Limbs. Cuticura Heals.

"Pimples broke out on the side of my baby girl's face and later on her limbs. They itched something terrible and she used to scratch them causing the trouble to spread, and also irritated it. Her clothing aggravated the breaking out on her limbs and she used to cry about all night."

"I read an advertisement for Cuticura Soap and Ointment and sent for a free sample. I purchased more, and after using one and a half boxes of Ointment and one cake of Soap she was healed." (Signed) Mrs. Bennie Shelburn, 4039 W. 119th St., West Park, Ohio, Aug. 22, 1924.

Use Cuticura for all toilet purposes. Sample each free by mail. Address Canadian Depot: "Shelburn, Ltd., Montreal." Price, Soap 25c, Ointment 25c and 50c. Tubes 25c. Cuticura Shaving Stick 25c.

BARRE, SON OF KAZAN

James Oliver Curwood

A LOVE EPIC OF THE FAR NORTH

Copyright, 1917, by Doubleday, Page & Co.

"BARRE, SON OF KAZAN," a Vitaphone Picture, With Wolf, the War Dog, is an Adaptation of This Story

SYNOPSIS

Nepeese, the Indian princess, in trying to lure the dog, Barre, from under the boulder where he sought to hide, was caught by the moving stone and screamed in terror. Her father, Pierrot, the French-Indian trapper, rescued her. Before that Nepeese had gone close enough to Barre to stroke him, and he found she was a friend, not an enemy. But Barre was still young and untamed and again he fled, for the sight of human beings was still strange to him.

CHAPTER X.

Just as in the life of every man there is one big, controlling influence, either for good or bad, so in the life of Barre the beaver-pond was largely an arbiter of destiny. Where he might have gone if he had not discovered it, and what might have happened to him, are matters of conjecture. But it held him. It began to take the place of the old windfall, and in the beavers themselves he found a companionship which made up, in a way, for his loss of the protection and friendship of Kazan and Gray Wolf. During this fortnight that followed Beaver-tooth's exploit on the dam Barre ate his meals a mile up the creek, where there were plenty of crawfish. But the pond was home. Night always found him there, and a large part of his day. He slept at the end of the dam, or on top of it on particularly clear nights, and the beavers accepted him as a permanent guest. They worked in his presence as if he did not exist.

One afternoon, when the toboggan was particularly wet and slippery from

HER NERVES BETTER NOW

Received Much Benefit by Taking Lydia E. Pinkham's Vegetable Compound

Chatham, Ontario.—"I started to get weak after my second child was born, and kept on getting worse until I could not do my own housework and was so bad with my nerves that I was afraid to stay alone at any time. I had a girl working for me a whole year before I was able to do my washing again. Through a friend I learned of Lydia E. Pinkham's Vegetable Compound and took four bottles of it. I gave birth to a baby boy the 4th day of September, 1922. I am still doing my own work and washing. Of course, I don't feel well every day because I don't get my rest as the baby is so cross. But when I get my rest I feel fine. I am still taking the Vegetable Compound and am going to keep on with it until cured. My nerves are a lot better since taking it. I can stay alone day or night and not be the least frightened. You can use this letter as a testimonial and I will answer letters from women asking about the Vegetable Compound."

—Mrs. CHARLES CARSON, 27 Forsyth Street, Chatham, Ontario.

Mrs. Carson is willing to write to any girl or woman suffering from female troubles.

Canadian Archer Wins In England

Belleville, Ont., Man Makes Good Showing in Sport Almost Unknown Here

Archery is a sport almost unknown in Canada, although it is practiced more or less in the United States, but in England it still holds an honored place on the calendar of sports and pastimes. Major Farley, of Belleville, Ont., recently won the gold medal in competition with the best archers in England and Scotland at London. At Bath he won the championship of the West of England, receiving a gold medal and a magnificent challenge trophy. In another competition at Bath, Major Farley won the special prize donated by the mayor of the city. The Grand National was shot for at Oxford where the Canadian archer was also victorious, winning a huge challenge trophy and a gold medal four inches in diameter, which dates back almost one hundred years. Various other competitions were won by Major Farley while abroad.

Tells Why He Can Now Eat Hearty

"A letter which I read in the paper about Carter's Little Liver Pills fitted my own case so closely that I could not help trying them and am very happy I did." So writes Mr. Frank J. Trumbull of Jersey City, N. J., whose letter goes on to say, "I had heard about Carter's Little Liver Pills for years but never knew they helped overcome poor appetite and sour stomach, until I read about another man in the same plight who took Carter's with good results. I tried them and can honestly say that they freed me of nasty gas on stomach, so that I can now eat without getting bilious, and they improved my appetite fully 100%. You can rest assured that from now on I will boost Carter's Little Liver Pills whenever I can."

Recommended and for sale by all drug stores.

ly where not even the winds might carry it to the ears of Bush McTaggart. They feared him; they hated him. They died of starvation and sickness, and the tighter Bush McTaggart clenched the fingers of his iron rule, the more meekly, it seemed to him, did they respond to his mastery. His was a small soul, hidden in the bulk of a brute, which rejoiced in power. And here—with the raw wilderness on four sides of him—his power knew no end. The Big Company was bewitched him. It had made him king of a domain in which there was little law except his own. And in return he gave back to the Company bales and bundles of furs beyond their expectation. It was not for them to have suspicions. They were a thousand or more miles away—and dollars counted.

Gregson might have told. Gregson was the investigating Agent of that district, who visited McTaggart once each year. He might have reported that the Indians called McTaggart Napao Wetkoo because he gave them only half price for their furs; he might have told the Company quite plainly that he kept the people of the trap-lines at the edge of starvation through every month of the winter, that he had them on their knees with his hands at their throats—putting the truth in a mild and pretty way—and that he always had a woman or a girl, Indian or halfbreed, living with him at the Post. But Gregson enjoyed his visits too much at Lac Bain. Always he could count on two weeks of coarse pleasures; and in addition to that, his own women-folk at home wore a rich treasure of fur that came to them from McTaggart.

One evening, a week after the adventure of Nepeese and Barre under the rock, McTaggart sat under the glow of an oil lamp in his "store." He had sent his little pipkin-faced English clerk to bed, and he was alone. It was just six weeks ago that Pierrot had brought Nepeese on her first visit to Lac Bain since McTaggart had been factor there. She had taken his breath away. Since then he had been able to think of nothing but her. Twice in that six weeks he had gone down to Pierrot's cabin. Tomorrow he was going again. Marie, the slim Cree girl over in his cabin, he had forgotten—just as a dozen others before Marie had slipped out of his memory. It was Nepeese now. He had never seen anything quite so beautiful as Pierrot's girl.

Audibly he cursed Pierrot as he looked at a sheet of paper under his hand, on which for an hour or more he had been making notes out of worn

and dusty Company ledgers. It was Pierrot who stood in his way. Pierrot's father, according to those notes, had been a full-blooded Frenchman. Therefore Pierrot was half French, and Nepeese was quarter French—though she was so beautiful he could have sworn there was not more than a drop or two of Indian blood in her veins. If they had been all Indian—Chippewyan, Cree, Ojibway, Dog Rib—anything—there would have been no trouble at all in the matter. He would have bent them to his power, and Nepeese would have come to his cabin, as Marie came six months ago. But there was the accursed French of it! Pierrot and Nepeese were different. And yet—

He smiled grimly, and his hands clenched tighter. After all, was not his power sufficient? Would even Pierrot dare stand against that? If Pierrot objected he would drive him from the country—from the trapping regions that had come down to him as heritage from father and grandfather, and even before their day. He would make Pierrot a wanderer and an outcast, as he had made wanderers and outcasts of a score of others who had lost his favor. No other Post would sell to or buy from Pierrot if Le Bete—the black cross—was put after his name. That was his power—a law of the Factors that had come down through the centuries. It was a tremendous power for evil. It had brought him Marie, the slim, dark-eyed Cree girl, who hated him—and in spite of her hatred "kept house" for him. That was the polite way of explaining her presence if explanations were ever necessary.

McTaggart looked again at the notes he had made on the sheet of paper. Pierrot's trapping-country, his own property according to the common law of the wilderness, was very valuable. During the last seven years he had received an average of a thousand dollars a year for his furs, for McTaggart had been unable to cheat Pierrot quite as completely as he had cheated the Indians. A thousand dollars a year! Pierrot would think twice before he gave that up. McTaggart chuckled as he crumpled the paper in his hand and prepared to put out the light. Under his close-cropped shaggy beard his reddish face blazed with the fire that was in his blood. It was an unpleasant face—like iron, merciless, filled with the look that gave him his name of Napao Wetkoo. His eyes gleamed, and he drew a quick breath as he put out the light.

NO BETTER MEDICINE FOR LITTLE ONES

Is What Thousands of Mothers Say of Baby's Own Tablets

A medicine for the baby, or growing child—one that the mother can feel assured is absolutely safe as well as efficient—is found in Baby's Own Tablets. The Tablets are praised by thousands of mothers throughout the country. These mothers have found by actual experience that there is no other medicine for little ones to equal them. Once a mother has used them for her child she will use nothing else. Concerning them Mrs. Charles Hunt, Tancook Island, N.S., writes: "I have ten children, the baby being just six months old. I have used Baby's Own Tablets for them for the past 20 years and can truthfully say that I know of no better medicine for little ones. I always keep a box of the Tablets in the house and would advise all other mothers to do so."

Baby's Own Tablets are sold by all medicine dealers or will be mailed upon receipt of price, 25 cents per box, by The Dr. Williams' Medicine Co., Brockville, Ont. A little booklet, "Care of the Baby in Health and Sickness," will be sent free to any mother on request.

Soldier Settlers Make Good

After an extensive investigation of conditions in Northern Alberta, Major E. J. Ashton, of the soldiers' settlement Board, Ottawa, reports that the big majority of the soldier settlers are making good. Since the 1924 crop, 7,000 of these farmers have met their obligations in full and 8,000 have met them in part. About 4,000 have not been able to make their payments.

Oil From Potatoes

Thin oil is being extracted by a simple process from spoiled potatoes in Australia. It is claimed that the oil is of special value in lubricating delicate mechanisms, such as certain scientific instruments. Having a low freezing point, it may be used for the engines and instruments of aeroplanes.

Says Men Sillier Than Dogs

No sensible man on his holidays wears an iron band around his neck. He discards the starched dog collar which chokes him all the year round. But when he returns home he allows custom to throttle him again. Why are men far more servile slaves to fashion than women? Woman has escaped from the steel corset, the germ-collecting skirt, and the throat-constricting gown. Their blood circulates freely. They can breathe. Men are sillier than dogs. But men pay to be laundered into asphyxiation. —London Sunday Express.

Every Woman Needs A Sink

Why get along without a kitchen sink any longer? Here is a new SMP Enamelled Ware Sink, the very latest. Made of rust-resisting Armco Iron, with three coats of purest white enamel, same as on bath tubs. Size 20" x 30" x 6" deep, with 12" back, complete with strainer, brackets, all fittings and directions for setting up. Price, complete, \$13.00.

The SMP Enamelled Drain Board shown above is made to fit the SMP Enamelled Ware Sink, or all standard sinks. Size 20" x 24". Has the same material and enamel as SMP Sinks and is complete with brackets and fittings for setting up. A great labor saver.

Price, complete, \$6.50

Fewer Labor Troubles

**Time Loss In Industrial Disputes Less
In August**

The time loss caused by industrial disputes was less in August than in the previous month, or in August last year, says the federal department of labor Gazette. Seventeen disputes were in progress at some time during the month, involving 13,003 employees and resulting in a time loss of 102,316 working days. Corresponding figures for July were as follows: 16 disputes involving 12,882 work people and 320,433 working days; and for August, 1921, sixteen disputes, 9,472 employees and 206,118 working days.

NATURE'S WARNINGS

**Danger Signals That Everyone
Should Take Seriously**

Pain is one of Nature's warnings that something is wrong with the body. Indigestion, for instance, is characterized by pains in the stomach, and often about the heart; rheumatism by sharp pains in the limbs and joints; headaches are a sign that the nerves or stomach are out of order. In some ailments, such as anaemia, pain is not so prominent. In this case Nature's warning takes the form of pallor, breathlessness after slight exertion, palpitation of the heart, and loss of appetite. Whatever form these warnings take, wise people will not ignore the fact that many diseases have their origin in poor blood, and that when the blood is enriched the trouble disappears. Dr. Williams' Pink Pills are most helpful in such cases because they purify and build up the blood to its normal strength. In this way it tones up the nerves, restores the appetite and gives perfect health. Miss Hazel Berndt, of Annapolis, Ont., has proved the great value of this medicine and says: "I am a young girl and have been working in a factory for the past four years. For two years I had been in such poor health that at times I could not work. I was thin and pale, and troubled with headaches and fainting spells. I doctored nearly all this time, but it did not help me. My mother advised me to take Dr. Williams' Pink Pills, and after using them for a while I could notice an improvement in my condition. I used nine boxes and can truthfully say that my health is restored. When I began taking the pills I weighed 97 pounds and now I weigh 114. I feel that I owe my good health to Dr. Williams' Pink Pills and hope other ailing people will give them a fair trial."

You can get these pills through any medicine dealer or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

In Belgium nearly all motorists carry emergency kits to be able to assist any injured person found along the way.

Received Message From King and Queen

Aunt of Earl Jellicoe Recently Celebrated Her 104th Birthday

Earl Jellicoe's aunt—Miss Catherine Jane Jellicoe—celebrated her one hundred and fourth birthday at her home in Southampton, England. She received congratulatory messages from all parts of the British empire, a telegram from the King and Queen of England being among the first to arrive. The British naval hero visited his aunt, who continues to live an active life. She breakfasted in bed as usual and spent the morning reading a mass of messages. Later two little girls from a neighboring orphanage, of which Miss Jellicoe is a generous benefactor, brought her flowers, and with them Miss Jellicoe discussed her own girlhood with great zest.

2 Years' Backache Subdued by "Nerviline"

"Backache was the bane of my life, and for two years I was so lame as to be unfit for work," writes E. S. Sloane, from Georgetown. "While in Smith Bros' Drug Store, I heard of Nerviline being a wonderful pain-destroyer, so I decided to try Nerviline. Thanks to Nerviline, my two-years' backache was rubbed away, and to-day I am perfectly well."

All those who suffer from weak, aching backs, those whose muscles are stiff, whose joints are swollen, let them try Nerviline—the liniment that never fails. 35c at all dealers.

Charming Design For An Overblouse

Paris puts a frill on its smartest overblouses, and so we have it here as the distinguishing touch on the two modes pictured above. White crepe-de-chine develops this blouse, the front of which is gathered to the back slightly below the shoulder-line in yoke effect. Right up to the minute is the convertible collar with its trimming-band of the new pansy purple shade. The same trimming is used for the pocket tabs, and the narrow cuffs on the long sleeves. Printed silk in small design fashions the blouse with the short sleeves, with material of a lighter tone used for trimmings. Sizes 34, 36, 38, 40 and 42 inches bust. Size 38 bust requires 2 1/2 yards of 36-inch material. Price 29 cents.

Home sewing brings nice clothes within the reach of all, and to follow the mode is delightful when it can be done so easily and economically, by following the styles pictured in our new Fashion Book. A chart accompanying each pattern shows the material as it appears when cut out. Every detail is explained so that the inexperienced sewer can make without difficulty an attractive dress. Price of the book 10 cents the copy.

SUNDAY SCHOOL LESSON

OCTOBER 4

PAUL IN ATHENS

Golden Text: In him we live, and move, and have our being. Acts 17:28.
Lesson: Acts 17:16-34.
Devotional Reading: Psalm 139:7-12.

The Text Explained and Illumined
Paul's Occupation At Athens, verses 16, 17.—While Paul awaited the coming of Silas and Timothy (see The Historical Background), his spirit was provoked within him as he beheld the city full of idols. To the cultured Athenians these idols were only objects of art, but to the ignorant they were gods.

A good criterion of a man's character may be gained from the knowledge of the things which stir his heart.

Paul preached in the synagogue to the Jews and proselytes, and also reasoned in the marketplace every day with them that met him. In this he was like Socrates, who was wont to stop his compatriots and by cross-examination try to arouse in them a desire for better things.

Paul may have been more successful in his work with individuals than in his public preaching. Personal work often wins where preaching fails. This is a ministry which all can exercise.

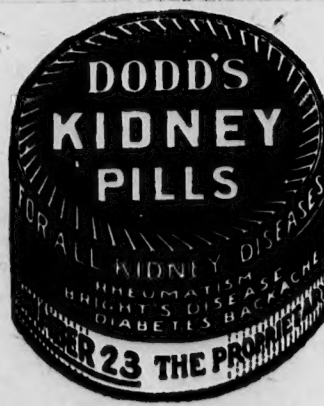

What Is Evaporated Milk?

**Interesting Information Regarding
This Important Article of Diet**

While the use of evaporated milk is general all over Canada, occasionally the query is made, "What is Evaporated Milk?" Evaporated Milk is nothing but fresh milk from which part of the water has been removed by evaporation. (Milk is 87 per cent. water.) Nothing is added to it. Nothing but water is taken from it. This concentration makes it more than twice as rich as ordinary milk. After it is thus concentrated it is put in air-tight containers, sterilized and marketed by the grocer, the manufacturer putting his brand on it, as Borden's St. Charles Milk, for example. Milk is fresh unless it has been subjected to attack by the bacteria which destroy its freshness. (Milk, when it comes from the cow, is exposed to the air and therefore subject to bacterial contamination.)

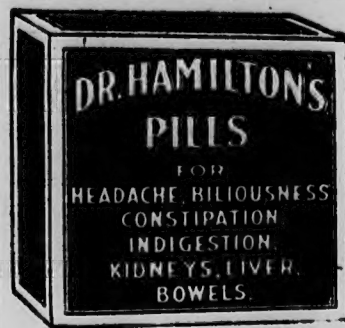

In the course of time the numbers of such bacteria increase and their action on the milk destroys its freshness. When milk becomes sour it is because the lactic acid bacteria have attacked the milk in such numbers and for such time as to develop the lactic acid that makes it sour. Evaporated Milk is concentrated at plants in the country within a few hours after it comes from the cow, the Borden Company, for instance, operating large condensaries at such dairy centres as Truro, N.S., Ingersoll and Norwich, Ontario, and South Sumas, B.C. The milk is put into air-tight containers and sterilized. By sterilization all bacteria are destroyed. The attack of such bacteria is absolutely stopped. No further bacteria can get into it. The sealed container brings it to the consumer as fresh and sweet as when it came to the country plants. It will keep fresh and sweet on the pantry shelf until the can is opened and, put in a cool place, will then keep sweet much longer after opening than bottled milk after it is delivered to the home.

Chinese wag their clenched fists instead of shaking hands.

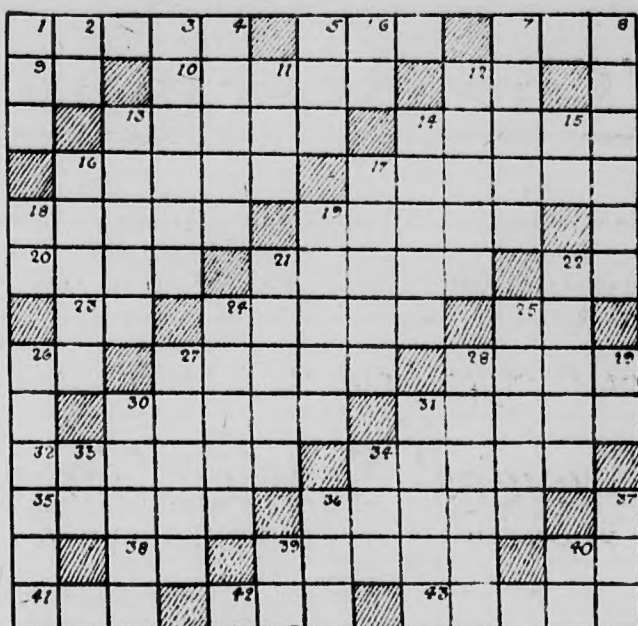

The Editorial Senators

The appointments of Mr. J. Lels, Toronto, and Mr. W. A. Buchanan, Lethbridge, Alta., to the senate are well merited honors to two eminent journalists. They will be a strength to the Upper Chamber and will ably support the reforms that are so much needed to make that body serviceable and powerful in Canada's interests. In journalistic circles their selection will be approved and commended.—Kingston Whig.

Answer To Last Week's Puzzle

Speed In the Air

It is very evident that those who desire real speed must take to the air. A mere 80 or 90 miles an hour in an automobile is pretty tame compared with the record of the French flier who made better than 150 miles an hour for four hours.

A Corrector of Pulmonary Troubles.
Many testimonials could be presented showing the great efficacy of Dr. Thomas' Electric Oil in correcting disorders of the respiratory processes, but the best testimonial is experience and the Oil is recommended to all who suffer from these disorders with the certainty that they will find relief. It will allay inflammation in the bronchial tubes.

B.C. Wealthy Apples

Shipments of British Columbia Wealthy apples made to South Africa last season arrived in good order, according to reports received at Vancouver, and the deal was so satisfactory that repeat orders have been received for 1925 delivery.

Many have been relieved of corns by Holloway's Corn Remover. It has a power of its own that will be found effective.

In 1920 Russia purchased more than \$5,000,000 worth of ammunition from the United States.

After shaving—Minard's Liniment

An All-Metal Seaplane

A new seaplane of unusual design has been built at Glasgow for the air ministry. The craft is made entirely of metal, even to the floats, so that it is able to ride out quite rough seas without any fear of damage. It has been given the official designation of Inverness, and is intended for carrying out long distance reconnaissance flights for the fleet.

What Qualifies a Voter.

Any male or female who is a British subject, 21 years of age, and who has ordinarily resided in Canada for 12 months, and in the electoral district two months before the issue of the writ is qualified to vote.

Regulations pertaining to rural municipalities, villages and towns of less than 5,000.

The returning officer appoints his own clerk, and in addition to this appoints a registrar for each polling sub-division in the rural municipalities and in villages and in towns having a population of 5,000 or less. These registrars compile the voters' lists for the election,

making use as a basis voters' lists used in the liquor plebiscite of 1923. From these lists the registrar strikes off the names of persons not qualified and adds the names of persons who are qualified to vote in federal elections. This completes the list.

There is no appeal from this list. Any elector who is disqualified may appear on election day in the division in which he resides and make oath to that effect. He will then be allowed to vote, providing he is vouched for under oath by an elector in the same polling division.

Wheat Pool Undertakes New Campaign.

Alberta grain growers are advised that the Alberta Wheat Pool has inaugurated a new campaign for membership and that this campaign is being conducted on a different basis than others in the past, either in Alberta or the two other prairie provinces.

The wheat pool idea had its genesis in this province. Here the original plan was worked out. The legal details in connection with incorporation, the memorandum of association, the members agreement and the by-laws, were first considered in Alberta, and, when carefully perfected, were the basis for the organizations subsequently brought into existence in Saskatchewan and Manitoba.

The success of the last two years has encouraged the directors of the wheat pool to authorize a new canvass for members at this time. This campaign is now begun and it will be carried on till the end of the year.

This membership campaign is open to anyone who wishes to join in the canvass, but no commission will be paid to any member of the board of directors or to any employee of the association. Delegates and local secretaries are eligible to participate in the canvass and receive commissions.

The commission is \$1.50 per contract. If the membership fee is paid in cash—the fee is \$3—the canvasser may remit \$1.50 to the head office of the wheat pool at Calgary and retain the balance as his commission. When the note form is signed by the grower on the contract sent in, the sum of \$1.50 will be sent by the head office to the canvasser, but it must be a bona fide wheat producer of the province, the contract must be complete as to full name of grower, his address, location of land and number of acres sown to wheat in 1925, and the signature properly witnessed.

In all cases contracts must be accompanied by canvassers report, properly filled out, with the full name of the canvasser, and address, properly shown. This is necessary so that the head office may send the commission to the proper party.

Contact forms, canvasser's report forms, and self-addressed envelopes are being sent to all wheat pool delegates, wheat pool locals' secretaries, secretaries of U.F.A. locals, and municipal secretaries, to any of whom canvassers may apply for supplies, or they may send for supplies direct to the head office of the pool at Calgary.

MODERN BUS SERVICE

A regular bus service has finally been established between New York and Philadelphia. It is the first time the railroads have met competition on this run. Each bus is equipped with running water, library and tables, and even a radio receiving set.

A World-wide System Of Financial Service

By telephone you can talk with your neighbour or with an individual thousands of miles away. By telegraph you can span the continent; by cable your message can girdle the earth.

In like manner you can use the service of the Bank of Montreal in little or large measure as the occasion demands.

You can transact business of a purely local nature or enter into financial dealings with people in any part of the world.

Like the telephone, telegraph or cable, our system of financial service is as extensive as are the needs of our customers.

WED., OCTOBER 7th

Admission 85c., including Tax. Children 50c., including Tax.

Twelve British newspapermen representing some of the most important dailies in Great Britain, are now making a six weeks' tour of the country over Canadian Pacific lines. The party will travel from Halifax to the Pacific Coast taking in all the important industrial and scenic points of the country. They will spend a day at the Canadian National Exhibition at Toronto, and will visit the famous Bungalow Camps in Ontario, as well as the beauty spots in the Rockies. They arrived at Quebec on August 22nd, on the Montclare, the object of the tour being to correct in the minds of representative British journalists the erroneous impressions recently made in England regarding Canada by certain sections of the press.

Under the heading, "The Inconsistencies of Men," C. B. Fletcher contributes the following interesting remarks on freight rates to the August "Railway Review":

"Man's progress is measured by his adaptability to his surroundings and his opportunity to trade with his fellow men by exchanging products. Transportation is the essential instrumentality for trade, commerce or business of any kind.

"The phenomenal prosperity of the United States today is the direct result of the most efficient transportation facilities in the world — railroads.

"Railroad transportation is worth ten times what it costs today to every person in this nation. The railroads haul your meat 500 miles for 36 cents a hundred pounds, you pay from 20 cents for cheap cuts to 60 cents for special cuts of meat or from 60 to 180 times the cost of transportation.

"The railroads haul flour 400 miles for 13 1/2 cents a hundred, 7 pounds for one cent. You pay 10 cents a pound for bread or 70 times the cost of transportation.

"You pay one dollar for a meal at a first class hotel on which the freight charges were less than two cents, including everything served, and the coal to cook it, and then tip the waiter ten cents or five times what the railroad received for hauling it 400 miles or more.

"The same man who tips the waiter ten cents will go out and make a speech and complain of high freight rates which are not one-fifth of the amount of his tip. ●

"Consistency, thou art a jewel!"

GENERAL CHANGE

THE MOUNTAINEER, Trains Nos. 13 and 14, between Chicago and Vancouver, will be withdrawn; last through train passing Calgary Westbound September 22nd, and Eastbound September 25th.

For further particulars, apply to any Ticket Agent, or

J. E. PROCTOR,

District Passenger Agent, Calgary.

Here and There

All previous records set by the Manitoba Telephone System, a provincial all-government owned and operated utility, were surpassed in July, when net earnings for the month were \$15,764. A surplus of \$100,000 was predicted for the present fiscal year.

According to an estimate made by Quebec Automobile Club officials from data supplied by transportation companies and garages, 200,000 tourists have already passed through Quebec this year. This, it is explained, is an increase of twenty per cent. over the total for the whole of last year.

RED ROSE COFFEE "is good coffee"

Confidence--A National Keystone

Evidence accumulates of the tremendous impetus which the 1925 crop of Western Canada is giving to business throughout the length and breadth of the Dominion, while paving the way for still greater increases and expansion. Almost every day the daily newspapers tell of some new record established. Both the C.P.R. and Canadian National are loading larger numbers of cars daily with grain than ever before in their history, with the result that the stream of wheat pouring into the terminal elevators is surpassing anything hitherto experienced in this country.

The Saskatchewan Co-operative Elevator Co., the largest initial wheat handling company in the Dominion, if not in the world, recently took in 1,200,000 bushels in one day, where as in no previous year did it quite reach the one million bushel mark.

Another most gratifying feature of this year's crop is that the actual yield per acre is not only coming up to the earlier estimates, but, taken on the whole, those estimates are being exceeded. In the matter of grade, too, the out-turn is highly gratifying, this year's crop grading higher than in any previous year. Not only is a very high percentage of contract grades, but at least half of the contract grades in Saskatchewan is reported as No. 1 Northern.

The large increase in wheat production in Canada this year, the satisfactory yield per acre, the good grade, and the substantial price is becoming well known throughout the United States, where the crop this year has fallen away below the average. As a result a movement of United States farmers to Western Canada has already begun.

The 1925 crop has also provided a final and conclusive reason for such an old established concern as the Hudson's Bay Company to take active steps to carry into effect its pre-war policy of extending operations throughout the West. The H. B. Company has, therefore, commenced building operations on a new \$5,000,000 store in Winnipeg, is enlarging its store in Vancouver, has purchased additional property to provide extensions at Calgary, Edmonton and Saskatoon, and has just concluded the purchase of an extensive site for a store in Regina.

These are some of the outward and tangible evidences of the renewed confidence in Western Canada which is now felt by everybody. That restored confidence is, in fact, the most valuable asset of all. It means more to our people and to this country and its future than all the millions of dollars of new wealth which the crop itself represents.

While the West was passing through the past few trying and difficult years, there was an all too general tendency towards pessimism and in the direction of decrying the country itself. When times are rather hard, and people are looking at the blue side of things, they are apt to forget that all countries have periods of depression, and that every year cannot be a "good" year. This year's crop, however, has demonstrated that Western Canada, as a country, is all right, and as a result the people are taking heart. There will be no boom, but there will unquestionably be a newer and firmer confidence.

And confidence is, let it be repeated, a real and vitally important national asset. Lack of confidence on the part of the people of Canada individually has, in the past, been an outstanding national weakness. In the planning and execution of great national undertakings Canadians have displayed confidence, but all too frequently in their individual capacity and enterprises they have been timid and fearful to venture. Such lack of confidence has been more in evidence in the East than in the West, although this section of the Dominion has not lacked croakers and prophets of blue ruin.

This year the West is not only proving to its own people what it can do, but it is demonstrating to all Canada and the world at large that under normal conditions it can provide the means to keep all the wheels of industry turning.

New Holstein Sales Service

Prospective Buyers Notified Where Cattle Are For Sale

The Holstein-Friesian Association of Canada, through their fieldman, Mr. R. M. Holtby, Port Perry, Ont., are providing a special sales service for prospective buyers of Holstein cattle. It is intended to help the small breeder by letting prospective buyers know where cattle are for sale.

The fieldman will visit established herds and report on the cattle offered for sale, as far as humanly possible, in order to give buyers definite information on the quality and breeding of the cattle offered.

The men and women who are lifting the world upward and onward are those who encourage more than criticize.

Makes Good Impression

J. H. Woods, of Calgary, Receives Rousing Reception in New Zealand

A wonderful impression was made on the people of New Zealand by J. H. Woods, president of the Canadian Press and a delegate to the Imperial Press conference now being held in Australia.

"He is the best speaker of the delegation," states a New Zealander, in a private letter received from Auckland. "At the New Zealand Government banquet to the delegates, Mr. Woods' voice 'shook the building,' and men leaped from their seats to cheer," the writer adds.

Granite is called the Mother Rock because it is the lowest rock in the earth's crust. Granite shows no evidence of animal or plant life.

Supremacy Of the Air

New British Seaplane is Capable of Great Speed

The Napier S-4 which is the secret seaplane built at Southampton for the British entry in the Schneider air cup race at Baltimore, is now ready for shipment to the United States. The utmost secrecy is still preserved, but it is capable of speed of considerably more than four miles a minute. The machine has monoplane wings built in one piece and no fabric is used, the only materials being metal and wood. The propellers are metal and the design throughout is entirely novel. The British hope not only to win the cup, but to gain definite air superiority.

BEAUTIFY IT WITH

"DIAMOND DYES"

Just Dip to Tint or Boil to Dye

Each 15-cent package contains directions so simple any woman can tint soft, delicate shades or dye rich, permanent colors in lingerie, silks, ribbons, skirts, waists, dresses, coats, stockings, sweaters, draperies, coverings, hangings—everything!

Buy Diamond Dyes—no other kind—and tell your druggist whether the material you wish to color is wool or silk, or whether it is linen, cotton or mixed goods.

The first steamer of the Swiss navy was built 97 years ago by an American, Edward Church, who then was the United States consul in France.

When Asthma Comes do not despair. Turn at once to the help effective—Dr. J. D. Kellogg's Asthma Remedy. This wonderful remedy will give you the aid you need so sorely. Choking ceases, breathing becomes natural and without effort. Others, thousands of them, have turned to this famous remedy and ceased to suffer. Get a package this very day.

Most people believe that diamonds will not wear out, yet those used in fine glass engraving establishments wear out within six or eight weeks.

Painless and perfect in their action, Miller's Worm Powders are always a safe and reliable remedy for children who show symptoms of worms. These symptoms are easily recognizable in a feverish restlessness, frequently ending in convulsions. A point of notable importance is that after Miller's Worm Powders have expelled the worms, the stomach and bowels are toned up into a very healthy condition.

A Tale Of Shipwreck

Bottle Message of Tragic Import is Found After Many Months

On a little island in the centre of the Indian Ocean, far from the steamship lanes, may be lying the bones of five seamen, saved from drowning when the Mary A. Bolling, of Philadelphia, was wrecked in a storm on March 18, 1924, according to a dispatch from Brussels.

A nurse at a sanatorium at Bredene, near Ostend, found in the sands a bottle containing the following message: "Sailing ship Mary A. Bolling, from Philadelphia, wrecked in storm March 18, known latitude 83 east, longitude 10 south. Five were saved but will starve unless somebody comes soon. Please notify grandfather, P. S. Woods, 4103 Walnut Street, Philadelphia. For God's sake hurry."

The bottle, with its message of hope, travelled many thousands of miles before it was picked up in Belgium.

Minard's Liniment for Colds

Thief Returns Valuable Watch

A year ago, burglars entered the home of E. F. De Bower, Chicago, president of the American Academy of Letters, through a window and stole jewelry, including a specially made \$800 wrist watch that enabled Mrs. De Bower, who is blind, to tell the time. There was said to be only one other watch like it in Chicago. The other night the same window was raised and a package pushed through. It contained the watch and this note: "Jem Connor is dying, wan you to have this and pray for him. His pal."

DOES NOT AFFECT THE HEART

Safe

Accept only "Bayer" package which contains proven directions. Handy "Bayer" boxes of 12 tablets. Also bottles of 24 and 100—Druggists.

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monosodium Salicylate of Salicylic Acid (Acetyl Salicylic Acid, "A. S. A."). While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

Children Cry for

Fletcher's
CASTORIA

MOTHER:—Fletcher's Castoria is a pleasant, harmless Substitute for Castor Oil, Paregoric, Teething Drops and Soothing Syrups, especially prepared for Infants in arms and Children all ages.

To avoid imitations, always look for the signature of *Dr. H. H. Fletcher*. Proven directions on each package. Physicians everywhere recommend it.

DELEGATES FROM MANY LANDS TO MEET AT OTTAWA

Ottawa.—The meeting here on October 13 of the inter-parliamentary union will bring to Canada a most distinguished body. There will be coming here from Europe and Asia four hundred delegates, representing thirty-nine nations.

Among them are many of the most prominent statesmen of Europe. The union is to meet for five or six days in Washington and conclude with a plenary meeting of one day in Ottawa. Two objects which have been reserved for discussion here are the rights of minorities and the suppression of narcotic drugs.

The inter-parliamentary union was founded twenty-three years ago, for the purpose of promoting world peace and closer international relations. Since the formation of the League of Nations it has worked in close co-operation with that body. Its membership is composed entirely of parliamentary representatives, and is divided into national groups forming the general body of the union.

Many Canadians Return

Thousands Are Now Flocking Back to Canada From U. S.

Ottawa.—Immigration to Canada for the first four months of the fiscal year ended July 31 amounted to a total of 40,608, of which 19,217 were British, 6,874 from the United States, and 14,517 from other countries. In the same period, 12,170 Canadians who had been absent in the United States six months and over, returned to Canada with the intention of making their permanent residence in this country.

The total number of Canadians who have returned from the United States since April 1, 1924, after settling in that country six months and longer, and now with the intention of remaining permanently in Canada, is 55,916.

Tourist Traffic Still Heavy

Regina.—G. D. Brophy, district passenger agent of the C.P.R., who has returned to the city from a holiday trip in the Rocky Mountains, reports that the tourist traffic is still very heavy throughout the prairies and in the mountains, and that it has been greater this year than ever before. At this time of the year the hotels at Banff and Lake Louise are usually nearly deserted, but this year both have a daily average of between 150 and 175 guests.

Royalty Marries

Racconigi, Italy.—With time-hallowed ritual that was beautifully simple, Princess Mafalda, the youthful second daughter of the ruling house of Italy, became the bride of Philip, Prince of Hesse.

Members of the royal families of Italy, Germany, Denmark, Greece, Roumania, Serbia, Belgium, Austria and Montenegro, and representatives of dynasties of Britain and Spain, witnessed the ceremonies.

Will Fund Debt to States

Washington.—The Czechoslovakian Government formally notified the United States debt commission that a commission sailed from Cherbourg, September 26 to fund the Czechoslovakian debt to the United States. The United States Government claims an indebtedness of approximately \$117,000,000 while Czechoslovakia has insisted that not all of this is directly chargeable against her.

Would Build Elevator

Ottawa.—Application for a site on which to construct an elevator at Victoria, B.C., has been filed at the department of marine and fisheries by Valentine Quin, of Vancouver. The proposed elevator, it is understood, would be used in connection with the handling of grain. Decision in the matter is hardly probable, it is stated, before the end of the present month.

Hunt For Mountain Goats

Chicago.—A group of white Rocky Mountain goats belonging to the only existing wild species of the American goats, will be shot by a field museum expedition into the Canadian Rockies of British Columbia leaving here October 12.

Saskatchewan Press Annual Convention

Weekly Newspapermen to Meet at Regina on Nov. 5th and 6th

Regina.—The annual convention of the Saskatchewan Division of the Canadian Weekly Newspapers Association will be held in Regina on Thursday and Friday, November 5th and 6th. A record attendance is expected. The members will assemble in the Council Chamber of the City Hall, Regina, at 10 o'clock on Thursday morning and at 11 o'clock the Board of Trade will supply automobiles for a drive around the city. The editors and their wives will all be guests of the Saskatchewan Wheat Pool for luncheon at 1 o'clock p.m., and at 3 p.m. the convention will be officially opened in the Council Chamber of the City Hall by His Worship, W. E. Mason, Mayor of Regina. Reports of the President and the Secretary-Treasurer will be received, and resolutions and nominating committees will be appointed.

At 6:30 p.m. the editors will be the guests of The Leader Publishing Company at dinner and at 8:30 p.m. they will be the guests of the Toronto Type Foundry Co. at a theatre party.

On Friday morning at 9 o'clock the convention will assemble in the Council Chamber and a forum on "News and Editorial" will be conducted by Mr. Sam Moore of the Swift Current Sun. At 10 o'clock a forum on "Job Office Methods," chairman, E. N. Carter, of Wilkie, and at 11 o'clock a forum on "Subscriptions and How to Get Them," chairman to be named. In the afternoon there will be a forum on "Free Publicity Evil," chairman, H. G. Sheldrake, North Battleford and also a forum on "Foreign and Local Advertising," chairman, Mr. S. J. Dornan, of Alameda, after which the reports of committees will be read and the election of officers takes place.

At 6:30 o'clock there will be a banquet given by the Saskatchewan Division of the Canadian Weekly Newspaper Association with leading citizens of the province and city of Regina as guests. During the afternoon the ladies attending the convention will be the guests of the Provincial Chapter of the Daughters of the Empire at a tea arranged in their honor.

Conclave On Disarmament

League of Nations is Making Preparations For Conference

Geneva.—Confirming the plans of the leaders, the League of Nations Assembly, in plenary sessions of the commission, laid the foundations of future international disarmament and economic conferences.

The disarmament commission adopted a resolution whereby the league council will make a preparatory study for a conference for reduction and limitation of armaments, so that as soon as general security has been achieved a conference will be convoked in order that "a general reduction and limitation of armaments may be realized."

Executing Chinese Robbers

Shanghai.—Twelve convicted Chinese robbers were executed publicly after a parade of the condemned. The parade and the hangings were witnessed by thousands. The executions will continue at the rate of six daily until 180 condemned men have been executed in accordance with the death sentences handed down by mixed courts.

WESTERN FUNDS AVAILABLE FOR H. B. RAILWAY

Winnipeg.—The following story appears in the news columns of the Winnipeg Free Press:

"If the Dominion Government will hand over the Hudson's Bay Railway as it now stands, from Hudson Bay Junction to Port Nelson, along with any improvements that have been made in shipping facilities, a Winnipeg-St. Boniface syndicate will finish the road with private capital, according to an offer now before Hon. G. P. Graham, minister of railways.

"The syndicate has offered to put up a million dollars as a guarantee of its good faith. The road would be finished within two years of the signing of the contract.

"The syndicate seeks the following from the government:

"(1) Water-power rights on the Nelson River to develop electric power to operate trains.

"(2) A four-year agreement for running rights over the Canadian National Railway tracks from Winnipeg, Portage la Prairie, or Brandon to Hudson Bay Junction.

"(3) The right to change the terminus to Fort Churchill, if thought advisable.

"The syndicate offers to provide a railway pier at the terminus at which vessels drawing 35 feet of water would be able to load safely or discharge cargo.

"Winnipeg grain interests are said to be interested in the syndicate which has had a man at Ottawa during the last week to press the application.

Want Early Settlement

Chinese Government Opposes British Probe Into Shanghai Affair

Peking.—The Chinese Government, replying to a British note of September 1, opposes a judicial inquiry into the Shanghai affair of May 30, and charges that the British proposal for such an inquiry has delayed settlement of the incident. Several Chinese were shot by police of the international settlement of Shanghai on May 30, during a demonstration in favor of striking employees of Japanese cotton mills.

The Chinese note expresses the opinion that since the facts of the Shanghai affair already have been jointly investigated by delegates of the Peking diplomatic body and discussed at several conferences, appropriate action at the present juncture would be to utilize the findings of these delegates, together with the report of Chinese delegates, as a basis and to start negotiations forthwith with a view to securing an equitable solution at an early date.

Big Coal Loadings

Winnipeg.—As an indication of the revival of business throughout the west, figures showing the purchase of coal for domestic consumption and general commercial uses, are made available. One day recently there was loaded on western lines of the Canadian Pacific Railway, six thousand and seventy-eight tons of commercial coal, as against one thousand four hundred and ninety-eight tons on the same day last year.

Says Cassair Field Is Second Klondyke

Editor of Alaska Weekly Predicts Early Development

Seattle.—The Cassair mining district in British Columbia, lying just across the Canadian border from Alaska, is due to take the place of the Klondyke in the course of the next few years, in the opinion of Frank J. Cotter, editor of The Alaska Weekly, who has just returned here after a four months' trip into that district.

"I make this statement after a four months' tour of the entire district," he said, "which is unquestionably the most wonderful country to be found to the north of Seattle.

"The showing that the country is able to make with the extremely limited equipment now available is surprising. And it will be even more surprising within the next two years—because in that time the mining camps all will be equipped with the most modern machinery.

"A couple weeks ago, just before coming out, I was on Discovery Gold Pan Creek and saw the last clean-up made in gold. It was all yellow, nuggety gold, and enough to make a full pack for a strong man."

Saskatchewan Appeals To Russian Prince

Is Considering Purchase of Farm Land In Province

Regina.—Prince Wisnowiecki, member of an old Russian family and formerly a member of the Imperial Council of Russia under the Czarist regime, is in Saskatchewan, considering the purchase of land and the carrying on of farming operations.

Of enormous stature and of impressive appearance, Prince Wisnowiecki, was driven from his country with other nobles when the Bolsheviks assumed power. His estates, residences and much of his other property was confiscated, but he escaped from his country.

Though familiar with conditions in Eastern Europe, the Prince is uncommunicative and prefers to discuss matters in connection with the country in which he now proposes to settle.

Harvesting Alberta Sugar Beets

Seven Thousand Acres Will Yield About 75,000 Tons

Lethbridge.—Sugar beet harvesting in Southern Alberta started Sept. 25 and digging has become general.

Seven thousand acres of beets will yield in the neighborhood of 75,000 tons for the new factory of the Canadian Sugar Refineries, Limited, at Raymond. The factory is capable of handling one thousand tons daily. The big mill has been tested out and is expected to be running full blast by October 10, when 250 men will be employed. The product of the factory will go out under the trade name of Crystal.

Ladies Saved Livestock

Regina.—All the livestock on the farm of M. McIntyre, six miles east of here, were saved by ladies who were alone on the farm when the barn caught fire at 4:30 Monday afternoon. Feed and implements, as well as the barn itself were destroyed. The loss is covered by insurance.

BRITAIN TAKES STEPS TO CURB RED CAMPAIGN

London.—The persistent outcry of a section of the press and the public for stringent measures against communists and other "red" propagandists and agitators, who allegedly long have been stirring up unrest among the British workers and trying to sow a mutinous spirit in the army and navy, seems to have borne fruit and induced the government to take steps in the direction demanded.

The offenders have been numerous, and it is reported that a general round up of them will take place in a few days. It is said the government already had decided to deport about fifty foreign reds allegedly involved in mischievous propaganda.

As an outgrowth of several conferences between the home office officials and the chiefs at Scotland Yard, orders have been given for an energetic campaign to remove the offenders, many of whom are foreigners. The police in the big provincial cities have been called upon to co-operate with the Scotland Yard men. The eyes of the police are to be focused on "Reds" of British nationality who are asserted to be working for pay in the interests of the Bolsheviks.

Bidding For British Trade

Empire Committee Will Be Invited To Visit Canada

Toronto.—The problems that await solution in placing on the markets of Great Britain, Canadian produce on a scale far greater than has heretofore been attempted were discussed at length at the Ontario Parliament Buildings, when representatives from other provinces conferred with the agricultural inquiry committee of the Ontario Legislature.

Various aspects of the situation, as related to different kinds of produce, were gone into, and before the conference closed a resolution was passed requesting that at the earliest possible date, members of the executive of the imperial economic committee should be invited to Canada to consult with representatives, both provincial and co-operative, of the agricultural industry, and that the arrangements necessary be made by the federal department of agriculture.

Hon. Dr. Jamieson, chairman of the agricultural committee, occupied the chair, and Hon. John S. Martin, minister of agriculture, welcomed the representatives, expressing at the same time the opinion that Canada was not keeping pace with other countries in capturing British trade.

Commander Opposed Flight

Lakehurst, N.J.—The Shenandoah was ordered on her fatal flight to the west, September 2, in spite of recommendations of Lieut. Commander Zachary Lansdowne that the trip be deferred until the second week in September. This is shown by official documents read into the records of the naval court of inquiry by Captain George Steele, Jr., commandant of the Lakehurst air station.

Huge Seizure of Narcotics

Tampa, Fla.—Federal agents captured eighteen, including the alleged "king" and his aides of higher-ups in a gigantic dope ring during the night, involving virtually all southern states and seized \$1,000,000 worth of narcotics, which is only a small portion of what is expected to be taken, according to the agents.

Warships On Cruise

San Pedro, Calif.—The British cruiser Cape Town and Canadian destroyer Patricia, have left here for San Diego. They are scheduled to remain here for a day before the cruiser continues on to the Brazil zone, where she is scheduled to arrive October 8, and the Patricia turns back for Esquimalt.

Enterprising Farmer Makes \$5,000

Lakehurst, N.J.—An Ohio farmer on whose property a part of the wreckage of the airship Shenandoah fell, told the naval inquiry court that he took \$5,000 in admission charges to tourists and for soft drink concessions.

Memorial For Sir Adam Beck

New Hamburg, Ont.—The municipal council of the township of Wilnot has decided to erect a memorial to the late Sir Adam Beck, in the village of Baden, Ont., Sir Adam's birthplace.

American Agricultural Editors Touring Dominion

The above picture shows the party of Agricultural Editors from the United States now touring Canada to study farming methods and the agricultural situation here. They are the guests of the department of immigration and colonization of the Canadian Pacific Railway.

AROUND THE TOWN

Miss May Herber of Calgary has been here visiting her brother, I. Herber, for a few weeks.

Miss Myra Herber expects to leave for Portland, Ore., on Wednesday, October 7th, where she will be attending the North Pacific Evangelistic Institute. She expects to be away for about two years.

A picture that is causing considerable comment is booked at the Opera House for Saturday night, entitled "Trouble with Wives." A good comedy accompanies this.

Arnold Liesemer left on Sunday last to resume his studies at Chicago.

Hazen Phillips of Vancouver visited with Mr. and Mrs. Miller last week on his way home from New York, where he had succeeded in winning second prize in the annual yacht race.

Mrs. F. Honeysett of Didsbury was a visitor in town Wednesday—Crossfield Chronicle.

Miss Mabel Kneeshaw, who has been the guest of Dr. and Mrs. W. G. Evans the past two weeks, left for her home in the East on Saturday.

A presentation was made to Mrs. E. Cressman, on Monday night of last week, by the members of the Business Girls' Club, of which Mrs. Cressman is also a member. The interesting little ceremony was performed by Miss Emma Hehn, the present consisting of a silver cake plate. Afterwards a very enjoyable time was spent with refreshments, games etc.

Birth—On Tuesday, Mrs. (Rev.) C. Nisson, Westcott, of a son.

Birth—On Saturday, Sept. 26th, Mrs. W. Bellamy of a son.

Hear the Progressive speaker at the Opera House next Tuesday.

The Ten Commandments

Cecil B. DeMille's picturization of "The Ten Commandments" will be at the Didsbury Opera House on Wednesday, October 7th. It comes to us with more superlative advance notices than any other picture which has ever been shown in Didsbury. Oddly enough, this picture deserves most of these adjectives. It is great, stupendous, colorful, and moving. It has comedy, spectacle and drama. A perfect cast, a fine story, and inspired direction. What else could one ask for?

The production takes a little over two hours to show. It is divided into two parts, ancient and modern. In the former the picture opens on the Israelite slaves building the city of Rameses in Egypt. They are being cruelly treated by the Pharaoh, and things look dark until Moses emerges to lead them. He asks for their liberty, and when it is not granted ten plagues are visited upon Egypt. After Rameses' son is killed in the last of the plagues, Rameses orders the Hebrews to leave. They go with aching bodies and glad hearts over the desert sands. This part of the picture is done in natural colors and in its sweep is overwhelming.

Then follow scenes showing Moses receiving the commandments on the mount, the children of Israel worshipping the golden calf in a wild orgy, and finally the fade-out in which Moses, wrathful at seeing his people's treachery, flings the tablets which he had received on the rocks smashing them into a thousand parts.
